

BECSA formed strategic partnerships with the Centre for Counterintelligence and Security Studies (CI Centre) and the Espionage Research Institute International (ERII) both from Washington DC, USA.

The CI Centre is an advanced resource for counterintelligence and training. The CI Centre's membership site, SPYPEDIA®, is an open source database that provides a rich source of counterintelligence, counterterrorism, and security-related information for counterintelligence and security professionals. Registered BECSA members qualify for a 25% discount to the CI Centre database Spypedia™. See http://www.cicentre.com/?page=membership_features
